## MASTER SERIES RANGES ALL GAS

*Practical elegance. Integrated vision. Beautiful efficiency.*

With all the efficient qualities you expect from a Bertazzoni, this series has a style that is all its own, with a sophisticated color palette that makes a piece of artwork for your kitchen. The Master Series blends the best of a commercial kitchen inspired style and advanced technology with fine Italian design. It comes with freestanding ranges and now more spacious ovens, together with wall ovens, cooktops and a complete suite of appliances matched by design to complete the kitchen.

## PROFESSIONAL SERIES RANGES ALL GAS

Smart thinking. Clean lines. Precise design.

The beautifully designed Professional Series brings capacity, flexibility and usability that are best in their category: professional performance for your kitchen at home. This line of products has been designed as an evolution of its own distinctive style, with elegant knobs, ergonomically designed handles and sophisticated colors. These iconic elements blend design and an innovative approach to function. This signature style has won many design awards since its introduction. The complete Professional Series kitchen suite includes freestanding ranges and built-in ovens, range tops and cooktops, refrigerators, dishwashers and ventilation systems.

### PROFESSIONAL SERIES COLORS

## PROFESSIONAL SERIES BUILT-IN OVENS XE/XT

### LCD TOUCH INTERFACE

The intuitive interface with touch controls and knobs with a clear graphic display turns the oven into the perfect partner to your cooking skills. The exclusive ASSISTANT function pilots the oven through the most appropriate sequence of cooking modes, times and temperature for each type of food.

### DUAL DIAGONAL CONVECTION

Two large-blade fans positioned on the diagonal axis, a baffle and subsidiary air vents at the top and bottom of the oven cavity provide balanced airflow and even heat distribution.

### HANDLE SOLUTION

Operate the soft-motion quadruple glass door with the ergonomically shaped stainless steel handle.

### ASSISTANT

Created with the help of renowned Italian chef consultant Roberto Carcangiu, the BERTAZZONI ASSISTANT provides you with a finely-tuned bank of cooking sequences for each type of food and oven preparation. Enjoy selecting the sequences that best suit your own style of cooking and culinary taste, store them for future use and build your own bank of cooking methods.

MANAGE

Select ingredients, weight, type of cooking and desired results and let the Assistant manage the best cooking sequence for a perfect dish.

SAVE

When a dish is prepared to your satisfaction, the Assistant lets you name and store the sequence for future use.

RETRIEVE

Repeat any cooking sequence that you have previously perfected and stored for future use with the help of the Assistant.

## PROFESSIONAL SERIES HOODS

The single-motor canopy hoods deliver extraction power up to 600 CFM with three different power settings. They come equipped with aluminum mesh filters or optional baffle filters, all easily removable and dishwasher safe. They can be installed under a cabinet or on the wall with an optional narrow or wide duct cover. The design matches Bertazzoni Professional Series ranges and cooktops while also complementing other Bertazzoni Series.

### DOUBLE MOTOR CANOPY

Double motor canopy hood shown with optional medium duct cover. Full-size duct cover is also available.

The dual motor canopy hoods deliver a combined 1200 CFM of extraction. They match Bertazzoni Professional Series ranges and cooktops while also complementing other Bertazzoni Series.

They can be installed under a cabinet or on the wall, with optional medium or wide duct covers. Stainless-steel baffle filters can be easily removed and are dishwasher safe.

## DESIGN SERIES HOODS

### HOOD CONTROLS

Use the touch control interface that lets you adjust the 3 different power levels with just the touch of a finger.

The Bertazzoni Design Series hood offers a sleek and elegant style with stainless steel framed glass and electronic touch through glass controls. It is a perfect match for the Bertazzoni Design Series wall ovens and segmented cooktops. Available with an efficient yet quiet 600 CFM motor and stainless-steel baffle filters, it can be installed for recirculation or ducted extraction.
